

## INDUSTRIAL SESSIONS' PROGRAM

### **Biomass into chemicals: Tuesday 12<sup>th</sup>, 13:40 - 15:40**

- 13:40 - 14:10 Overview on biobased chemical intermediates development.  
From drop in strategy to highly functional biomolecules.  
*J. Vandeputte, IAR (Industry and Agro-Resources competitiveness cluster)*
- 14:10 – 14:40 Alternatives routes to acrylic acid.  
*J.-L. Dubois, Arkema*
- 14:40 – 15:10 New Monomers based on Renewable Sources: Opportunities and Challenges.  
*P. Marion, Solvay*
- 15:10 – 15:40 Discussion  
*Chairs : P. Le Thuaut, J. Vandeputte and F. Dumeignil*

### **Biomass into Biofuels: Thursday 14<sup>th</sup>, 13:40 - 15:40**

- 13:40 - 13:50 Introduction 1<sup>st</sup> generation to advanced Biofuel – scaling up.  
*J. Vandeputte : IAR (Industry and Agro-Ressources Competitiveness cluster)*
- 13:50 – 14:30 Catalysis for Biorefineries: The first hurdles towards industrial development.  
*J.-P. Lange, Shell*
- 14:30 - 15:10 Biofuels in Transport: Outlook and Opportunities.  
*D. Stern, Exxon-Mobil*
- 15:10 - 15:40 Discussion  
*Chairs : P. Le Thuaut, J. Vandeputte and C. Geantet*
