

Valérie André-Frei

Education

- PhD in Human Biology Lyon University: specialty Tissue Engineering and Biomaterials (1995)
- Master degree Lyon University: specialty Genetic Differentiation & Immunology (1991)
- Engineer: Institut National des Sciences Appliquées de Lyon, specialty Biochemistry (1990)

Experience

BASF Beauty Creations/ BASF Beauty Care Solutions France

- Since 2013: R&D Scouting & Communication expert
- 2009 - 2013: R&D Site Group Manager
- 1994 - 2009: Project Leader then Tissue Engineering and Efficiency Testing manager

While designing new ingredients or concepts for BASF Beauty Care Solutions, I set up more than 20 national and international scientific collaborations and actively contributed to the development of new methodologies to support BBCS cosmetic applications.

I'm currently in charge of scientific communication, scouting and particularly of strategic innovation.
