

Invited sessions for ISCB42 (Lyon, 2021)
Session 6

Selective inference after variable selection

Organizers : [Georg Heinze](#) : Medical University of Vienna, AU
[Els Goetghebeur](#) : Ghent University, BE

[Oliver Dukes](#) : Ghent university, BE

How to obtain valid tests and confidence intervals for treatment effects after confounder selection?'

[Michael Kammer](#) : University of Vienna, AT

'Evaluating methods for Lasso selective inference in biomedical research by a comparative simulation study'.

[Jessica Franklin](#) : Harvard Univ, US
