

Invited sessions for ISCB42 (Lyon, 2021)
Session 8

Optimal design of longitudinal cluster randomised trials

Organizers : [Andrew Copas](#) : University College London, UK
[Stacia De Santis](#) (University of Texas Health Sciences Center, US)

[Dr Jess Kasza](#) : Monash University, Australia
Faster and more agile designs: speeding up the stepped wedge

[Prof Richard Hooper](#) : Queen Mary, University of London, UK
Longitudinal cluster randomised trials with continuous recruitment

[Dr Andrew Copas](#) : University College London, UK
Optimal design of cluster randomised trials with baseline measurements

[Prof Karla Hemming](#) : University of Birmingham, UK : discussant
