

PROGRAMME JOURNÉE MYCOLOGIE - 28 OCTOBRE

| | |
|------------------------|--|
| 8h00-8h30 | Accueil des participants |
| 8h30 | Accueil officiel |
| 9h00-10h45 | Session 1 - Nouvelles thérapeutiques, nouveaux traitements antifongiques Modérateurs : Françoise BOTTEREL et Muriel CORNET |
| 9h00-9h30 | Nouvelles thérapeutiques, nouveaux traitements antifongiques. Jérôme GOVIN The epigenetic BET proteins, a potential new target to treat fungal infections. |
| 9h30-10h00 | Nouveaux traitements antifongiques en cours d'essais cliniques. Hervé DUPONT |
| 10h00-10h45 | Communications orales non invitées Thème 1 |
| Oussama BABBA | Experimental model of vulvovaginal candidiasis: virulence, host response and vaccination. <u>Oussama Babba</u> , Caroline Mahinc, Nicolas Rochereau, Pierre Flori |
| Guillaume HAMION | Valuation of invasive plants against the bi-species biofilm <i>Staphylococcus aureus-Candida albicans</i> . <u>Guillaume Hamion</u> , Willy Aucher, Charles Tardif, Julie Miranda, Stéphanie Crapart, Clément Bernard, Caroline Rouger, Marion Girardot, Christine Imbert |
| Andres CEBALLOS-GARZON | CRISPR-Cas9 approach confirms Crz1 as a promising target against echinocandin-resistant <i>Candida glabrata</i> . <u>Andres Ceballos-Garzon</u> , Lucia Monteoliva, Concha Gil, Elvira Roman, Jesús Pla, Fabrice Pagniez, Carlos Alvarez-Moreno, Nelson E. Vega-Vela, David M. Engelthaler, Jolene Bowers, Claudia M. Parra-Giraldo, Patrice Le Pape |
| Alicia MORENO SABATER | <i>Trichophyton indotineae</i> : a case series of extensive dermatophytosis resistant to terbinafine in France. Arnaud Jabet, Sophie Brun, Anne-Cecile Normand, Sebastien Imbert, Mohammad Akhouni, Eric Dannaoui, Laetia Audiffred, Francois Chasset, Arezki Izri, Liliane Laroche, Renaud Piarroux, Claude Bachmeyer, Christophe Hennequin, <u>Alicia Moreno Sabater</u> |
| Sophie BRUN | Algorithm for the management of tinea capitis in children after stopping the marketing of griseofulvin in France. <u>Sophie Brun</u> , Sébastien Barbaro, Marie Beylot-Barry, Françoise Botterel, Marion Caseris, Olivier Chosidow, Laurent Chouchana, Nicolas Dupin, Jean-Pierre Gangneux, Bernard Guillot, Annabel Maruani, Jean Menotti, Christelle Moreau, Julie Toubiana |
| 10h45-11h15 | Pause café, visites stands et posters |
| 11h15-12h30 | Session 2 - Actualités COVID et Infections fongiques Modérateurs : Eric DANNAOUI, Laurence MILLON et Florence PERSAT |
| 11h15-12h00 | Communications orales non invitées Thème 2 |
| Sonia TRABELSI | COVID-19-associated Rhino-Orbito-Cerebral mucormycosis: Report of 3 cases. Sarra Cheikhrouhou, Moez Lazzem, Salma Romdhani, Selima Jouini, Ons Kharrat, Ines Riahi, Dorsaf Aloui, Alia Jebri, Meriam Bouchekoua, <u>Sonia Trabelsi</u> , Samira Khaled |
| Arnaud FEKKAR | COVID-19 Associated Pulmonary Aspergillosis (CAPA): comparison of the incidence between the first and subsequent epidemic waves. Marion Blaize, Dimitri Kornblum, Julien Mayaux, Laure Kamus, Audrey Raelina, Alexandre Lampros, Sophie Demeret, Jean-Michel Constantin, Antoine Monsel, Charles-Edouard Luyt, <u>Arnaud Fekkar</u> |

| | |
|----------------------------|---|
| Jean-Pierre GANGNEUX | Influenza- and COVID-19-Associated Pulmonary Aspergillosis: Similarities and differences? Florian Reizine, Kieran Pinceaux, Mathieu Lederlin, Brice Autier, Hélène Guegan, Arnaud Gacouin, David Luque-Paz, Christelle Boglione-Kerrien, Astrid Bacle, Sorya Belaz, Brendan Le Daré, Yoann Launey, Mathieu Le Souhaitier, Benoit Painvin, Adel Maamar, Christophe Camus, Alexandre Mansour, Florence Robert-Gangneux, Yves Le Tulzo, Jean-Marc Tadié, Jean-Pierre Gangneux |
| Jean MENOTTI | Evaluation of the performances of <i>Aspergillus fumigatus</i> qPCR for the diagnosis of COVID-19-associated pulmonary aspergillosis. Romane Bouvier, Charline Miossec, Damien Dupont, Meja Rabodonirina, Martine Wallon, Florence Persat, Jean Menotti |
| Claire de BENGUY | Biological markers of aspergillosis in severe COVID-19 patients: How to distinguish colonization from invasive infection? Claire de Benguy , Caroline Mahinc, Chloé Talon, Anne-Laure Demartin, Vincent Gauthier, Guillaume Thiery, Pierre Flori |
| 12h00-12h30 | COVID-19 et infections fongiques invasives : Questions/Réponses et perspectives pour 2022. Jean-Pierre GANGNEUX |
| 12h30-14h00 | Pause déjeuner, visites stands et posters |
| 14h00-16h00 | Session 3 - Environnement et infections fongiques Modérateurs : Christine IMBERT et Jean MENOTTI |
| 14h00-14h30 | Diagnostic sérologique de pneumopathie d'hypersensibilité. Anne-Pauline BELLANGER |
| 14h30-15h00 | Place du mycobiote dans le paradigme de l'exposome. Laurence DELHAES |
| 15h00-16h00 | Communications orales non invitées Thème 3 et libre |
| Céline NOURRISSON | Analysis of a collection of <i>Diutina catenulata</i> strains provides evidence for acquired azoles resistance and genetic clustering. Céline Nourrisson , Maxime Moniot, Estelle Robert, Rose-Anne Lavergne, Ferry Hagen, Claudia Cafarchia, Geraldine Butler, Sophie Cassaing, Marcela Sabou, Frédéric Grenouillet, Virginie Bonnin, Patrice Le Pape, Philippe Poirier, Florent Morio |
| Louise-Eva VANDENBORGH | Fungal and bacterial exposome in asthma patient cohort. Louise-Eva Vandenberght , Raphaël Enaud, Charlotte Urien, Noémie Coron, Pierre-Olivier Girodet, Stéphanie Ferreira, Patrick Berger, Laurence Delhaes |
| Florian LUSSAC-SORTON | Evolution of pulmonary and digestive microbiota-mycobiota in cystic fibrosis patients treated with Lumacaftor/Ivacaftor. Florian Lussac-Sorton , Éléna Charpentier, Stéphanie Bui, Michael Fayon, Julie Macey, Élodie Blanchard, Sébastien Imbert, Thierry Schaevebeke, Raphaël Enaud, Laurence Delhaes |
| Coralie BARRERA | Detection of specific IgE antibodies against molds involved in ABPM in cystic fibrosis Patients. Coralie Barrera , Carsten Schwarz, Ersilia Vita Fiscarelli, Laurence Delhaes, Solène Le Gal, Jean-Pierre Gangneux, Christophe Hennequin, Jean-Philippe Bouchara, Laurence Millon |
| Marion BLAIZE | Invasive mixed infections due to <i>Aspergillus</i> and Mucorales: a 7 year monocentric study. Marion Blaize , Sébastien Imbert, Arnaud Jabet, Cécile Nabet, Renaud Piarroux, Arnaud Fekkar |
| Théo GHELFENSTEIN-FERREIRA | Detection of mycovirus in <i>Aspergillus fumigatus</i> by in silico transcriptome-mining approach. Théo Ghelfenstein-Ferreira , Juliana Pipoli da Fonseca, Thomas Cokelaer, Aude Sturny-Leclère, Sarah Wong, Alexandre Alanio, Vishukumar Aimanianda, Stéphane Bretagne |
| Elena CHARPENTIER | Induced Bronchus-Associated Lymphoid tissue (iBALT) is associated with lung clearance of <i>Pneumocystis</i> in immunocompetent mice. Elena Charpentier , Sandie Menard, Catherine Marques, Nicolas Blanchard, Antoine Berry, Xavier Iriart |
| 16h00-16h30 | Pause Café, et visites posters et stand |

| | |
|--------------------|---|
| 16h30-18h30 | Session 4 - Traumatismes et infections fongiques Modérateurs : Danièle MAUBON et Boualem SENDID |
| 16h30-17h30 | Zoonoses d'inoculation : exemple de la sporotrichose : point de vue médical et vétérinaire. Flavio QUEIROZ-TELLES / Jacques GUILLOT |
| 17h30-18h30 | Communications orales non invitées Thème 4 et libre |
| Meja RABODONIRINA | Mucormycosis complicating necrotizing fasciitis of the chest wall. Charline Miossec, <u>Meja Rabodonirina</u> , Laure Fayolle-Pivot, Damien Dupont, Thomas Potier, Shony Nguyen, Alexis Trecourt, Martine Wallon, Olivier Martin, Florence Persat, Jean Menotti |
| Loïc SIMON | Epidemiology of superficial fungal infections in the University Hospital of Nice (France). Anne Landreau, <u>Loïc Simon</u> , Pascal Delaunay, Pierre Marty, Christelle Pomares, Lilia Hasseine |
| Sarah DELLIÈRE | Diagnosis of invasive fusariosis by detecting circulating DNA: retrospective analysis of 13 proven cases. <u>Sarah Dellière</u> , Juliette Guitard, Marcela Sabou, Cécile Angebault, Marjorie Cornu, Samia Hamane, Marie-Elisabeth Bougnoux, Maxime Moniot, Grégoire Pasquier, Françoise Botterel, Stéphane Bretagne, Alexandre Alanio |
| Cécile ANGEBAULT | Shotgun metagenomics: a promising way for the diagnosis of hepatosplenic candidiasis? <u>Cécile Angebault</u> , Christine Robin, Françoise Foulet, Frédérique Boquel, Marie-Elisabeth Bougnoux, Christophe Rodriguez, Sébastien Maury, <u>Françoise Botterel</u> |
| Grégoire PASQUIER | Time to positivity in blood cultures according to <i>Candida</i> species: Optimal incubation time and species prediction. <u>Grégoire Pasquier</u> , Laurence Lachaud, Yann Dumont |
| Corantin MAURIN | Innovative ex vivo model of human fungal keratitis in active storage machine: preliminary results. <u>Corantin Maurin</u> , Marielle Mentek, Louise Coulomb, Pierre Flori, Caroline Mahinc, Zhiguo He, Gilles Thuret, Philippe Gain |
| Florence PERSAT | Uncertainty in index value measurement for the Platelia <i>Aspergillus</i> antigen ELISA: Interest of long-term uncertainty. <u>Florence Persat</u> , Estelle Bugni, Charline Miossec, Céline Renaud, Damien Dupont, Lopez Marie, Jean Menotti, Richard Cohen, Bernard Poggi |
| 18h45-19h00 | Remise des prix de la meilleure communication orale et affichée (et présentation) - Mot de clôture |
| 19h00-19h45 | AG SFMM |
